Weight Stigma and Bias: Implication for Bariatric Patients - Nursing Perspective

Catherine Smith RN, Mast NP, Grad Dip PNSA, Grad Dip ICU
Weight Bias and Stigma

Nurse’s Role
Vulnerable population

• Why is the excessive weight population a vulnerable population?

• Australian Nurses are required to practice as per NMBA Code of Conduct for Nurses (March 2018)

• New Zealand Nurse are required to practice as per Nursing Council of New Zealand Code of Conduct for Nurses (2012)
Why consider Cultural Safety

“.. Presence or absence of cultural safety is determined by the recipient of care: it is not defined by the caregiver..” (CATSINaM 2014)
What type is it?

Or
Practicing Cultural Safety
### Self Reflection using 5 Rs - Reflection Framework

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
